Philosophy

Caring Hands Day Care Center is a comprehensive Child Care Center. The Program is based on the philosophy that children pass through stages of development at his/her own rate. As Teachers it is our responsibility to assist children's growth by recognizing each stage of development and prepare the curriculum to master those skills.

MISSION STATEMENT

Caring Hands Day Care Center exists to provide developmentally age appropriate programs that will foster social, emotional, intellectual, and physical needs of the children we serve. It is our belief that children learn through play.

OBJECTIVES

- ❖ To provide children with a safe and healthy environment
- ❖ To provide quality care for all children
- ❖ To provide age appropriate activities that will allow the children to discover themselves and the world around them.
- ❖ To provide an environment of warmth and friendliness to help the child feel comfortable.
