

CHANGES TO AIMS_V3.0 DATA REPORTING REQUIREMENTS

1. AIMS Field 65 (Foster Care Contractor) is required for the children/youth in the Enrolled Non-Target Reporting Population (see requirement on pages 49 & 71) for all children ENROLLED in CMHC services with a custody status of 4 (Child in SRS custody and out of home placement).
2. CMHCs are not required to report AIMS_V3.0 Field 3 (Medicaid Beneficiary ID) for persons with a registration value of 2 (Pending) or 3 (Not Enrolled). (see page76)

When using the AIMS_V3.0 Manual, please make note of the following attributes:

The AIMS_V3.0 Manual is organized in sections based on a person's registration value and chronicity status and the distinct reporting requirements for adults and children/youth. Therefore, the definitions for some fields and the labels are tailored to the reporting requirements for specific populations. For example:

- The title for AIMS fields 37.01-37.03 is Evidence Based Services. Data for the fields are relevant to and should be reported for all persons with a Registration value of 1 and a Chronicity status of 3. The title for AIMS fields 54.01-54.03 is Evidence Based Services for Transition-Aged Youth. The purpose of adding the language "for Transition-Aged Youth" to the title is to denote that these Evidence Based Services are relevant only to transition-aged youth. A value of 2=No should be reported for all children with a Registration value of 1 and a Chronicity status of 6, who are not in the transition age range. Please note that the correct response can still be "2=No" for youth that are of transition age.
- The reporting instructions for AIMS_V3.0 Field 3 (Medicaid Beneficiary ID) are unique for the Enrolled Targeted Reporting Population and Enrolled Non Target Reporting Population.

Enrolled Targeted Reporting Population:

3. Medicaid Beneficiary ID: This is an 11 digit number that starts with 001.

- Reported for all adults in the targeted reporting population and all children in the targeted reporting population.
- Report the Health Wave Title XIX and Health Wave Title XXI ID as the Medicaid ID for persons whose payment source is HealthWave Title XIX and Title XXI. (see page 11)

Enrolled Non Target Reporting Population:

3. Medicaid Beneficiary ID: This is an 11 digit number that starts with 001.

- Reported for all adults and all children **ENROLLED** in CMHC services.
- Report the Health Wave Title XIX and Health Wave Title XXI ID as the Medicaid ID for persons whose payment source is HealthWave Title XIX and Title XXI. (see page 51)

GENERAL REVISIONS TO AIMS_V3.0 MANUAL

1. Revised/refined the introduction (pages 2-4)
2. Deleted all references to reporting requirement for data reported via AIMS that was used, prior to January 2005, to monitor CMHCs HealthWave Title XIX contracts .
3. Definitions for Evidence Based Services are in Appendix G (page 116) and Definitions for Individualized Education Plan and 504 are in Appendix H (page 118).

ADULT CLIENT STATUS FIELD REVISIONS

1. Changed the title of AIMS_V3.0 Field 37.01-37.03 from Evidence Based Practices to Evidence Based Services. Clarified that CMHCs should report 1=Yes for these fields if services meet the Federal Definition of Evidence Based Services and/or fidelity standards of the EBP Dartmouth Pilot Projects. (page 23 & Appendix H on page 116)
2. Added a caveat to the definition for AIMS_V3.0 Field 41.12 (Precariously Housed) that in rural/frontier areas, for example, precariously housed includes persons that would be homeless if they were not living with friends/family. (page 27)
3. Revised AIMS_V3.0 Field 48 (Reason for CSS Stop). This field should be reported if the person is discharged from CMHC services or the person's chronicity value changes from 3 to another value. Also added instructions for how to report information when the person's services are terminated as a result of the person's death. (page 31)

CHILDREN/YOUTH CLIENT STATUS FIELD REVISIONS

1. Changed the title of AIMS_V3.0 Field 54.01-54.03 from Evidence Based Practices to Evidence Based Services for Transition-Aged Youth. Clarified that CMHCs should report 1=Yes for these fields if services meet the Federal Definition of Evidence Based Services and/or fidelity standards of the EBP Dartmouth Pilot Projects. (page 34)
2. Clarified that 1 = YES or 2 = NO must be reported for every child in AIMS fields 56.01 and 56.03. The distinction between an Individualized Education Plan (IEP) and a 504 Plan is described in Appendix H, (page 35)
